

DAVID ATOBATELE .I.

Location: Ibadan, Oyo State. | Email: davidatobatele2@gmail.com | Phone: +2347044499435

CAREER SUMMARY

Cyber Security Engineer and **Penetration Testing Specialist** with a comprehensive foundation in **Ethical hacking, Vulnerability Assessment, and Exploit development**. Demonstrates proficiency in utilizing platforms such as **Linux**, Metasploitable 2, and VMware to construct and analyze simulated attack environments for research and Instructional purposes. Actively engaged in independent study and practical experimentation focused on **Network Defense mechanisms, system hardening methodologies**, and the evolving landscape of cyber threats. Committed to the advancement of cyber security knowledge through applied learning and academic inquiry.

SKILLS

- **Languages:** Python, JavaScript, PHP, Bash Scripting.
- **Frameworks:** OWASP, MITRE ATT&CK, Openssl, GnuPG, Burp Suite, BeEF, Metasploit.
- **Tools:** Nmap, Nessus, OpenVAS, SQLmap, Hydra, Medusa, Wireshark, Tshark, Exploit-DB, Meterpreter, Social Engineering Toolkit.
- **Platforms:** Linux, Windows, AWS, Apache, Wordpress, CISCO.
- **Soft Skills:** Professionalism, Strong Stakeholder management, Reporting Skills, Collaboration & Leadership, Continuous Learning.

PROFESSIONAL EXPERIENCE

Cyber security Instructor

ALUSOFT TECHNOLOGIES, OYO STATE

June

- Facilitated immersive cyber security training programs with an emphasis on **real-time threat analysis, incident response, and security architecture design**.
- Guided students through **red team vs. blue team exercises**, emphasizing adversarial thinking and defense-in-depth strategies.
- Taught advanced usage of industry-standard tools such as **Wireshark, Burp Suite, Hydra, and OpenVAS**, enabling learners to perform professional-grade assessments.
- Delivered structured sessions on **Python scripting, Linux system hardening, and network protocol analysis**, aligning with modern security job market demands.
- Spearheaded the development of **custom security labs and CTF-style challenges**, fostering hands-on mastery and teamwork.
- Supervised student-led research and presentations on emerging threats such as **AI in cyber-attacks, ransomware trends, and cloud vulnerabilities**.

Cyber security Instructor

SOLAREX IT WORLD, OYO STATE

SAFEHANDS CODING SCHOOL, OYO STATE

February

- Delivered practical and theoretical instruction covering core cyber security principles including threat modeling, risk assessment, encryption, and secure software development.
- Focused extensively on **penetration testing methodologies**, vulnerability scanning, and **ethical hacking** using tools like Kali Linux, Metasploit, and Nmap.
- Integrated **programming fundamentals** (Python, Bash) into lessons to strengthen students' capabilities in automating tasks and developing scripts for security operations.
- Designed real-world lab environments to simulate attack and defense scenarios, enhancing hands-on learning and critical thinking.
- Mentored learners through capstone projects that demonstrated secure coding practices and exploit mitigation techniques.

CERTIFICATIONS

- **CISCO NETWORKING ACADEMY**
Cyber Security: Introduction to Cyber security, Ethical Hacking.
- **UDEMY**
 - Advanced Brute Forcing Techniques
 - Bash Scripting
 - Ethical Hacking 2025
 - Web Enumeration
 - Linux Security
 - Network Exploitation
 - Advanced Offensive Security
 - Vulnerability Assessment and Penetration Testing

TRAININGS

- Cyber Security – University of Ibadan Consultancy Services
- CEHv13
- PENETRATION TESTING PROFESSIONAL – INE
- Certified in Cyber Security – ISC2
- CompTIA Security+
- External Pentest Playbook – TCM Security
- Certified Professional Ethical Hacker (CPEH)

REFEREE

- Available on request.
